### **DAVIS ANNOUNCES ISSA AS SUBCOMMITTEE CHAIRMAN** *Issa Will Head Energy and Resources Subcommittee*

**Washington, D.C.** – House Government Reform Committee Chairman Tom Davis (R-VA) today announced that Rep. Darrell Issa (R-CA) will serve as Chairman of the Subcommittee on Energy and Resources.

The Subcommittee will have jurisdiction over all matters relating to the oversight of environmental policy, natural resources, and federal land; and all matters related to the oversight of energy policy and commerce.

“The talented, hard-working and dedicated Congressman Issa will make a great addition to Government Reform as the new Energy and Resources Subcommittee Chairman. His extensive experience as a technology leader in the private sector will help him play a big part in the Committee’s oversight role to root out waste, fraud and abuse in certain government programs while protecting our environment and natural resources. It’s a pleasure to have him aboard,” Chairman Davis said.
